## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-3 and 12-19, drawn to a method for monitoring and controlling a spin imparted on an optical fiber and a method for controlling bi-directional symmetry of altering symmetrical spins imparted on an optical fiber, classified in class 385, subclass 123.
  - II. Claims 4-11, drawn to a method for making an optical fiber, classified in class 65, subclass 435.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case, the different inventions have different functions, since invention I is directed to a method for monitoring, controlling a spin imparted on an optical fiber and controlling bi-directional symmetry of altering symmetrical spins imparted on an optical fiber; whereas, invention II is directed to a method for making an optical fiber including the steps of heating an optical fiber preform and drawing an optical fiber from the preform.

3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.
4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
